

Striving for Excellence

Meet Our New Administrator David F. Fielding, LNHA

David F. Fielding joined the staff at Medford Multicare Center in March of this year. He comes to us with 26 years experience working in Long-Term Care.

David holds a Bachelor of Science in Psychology and a Master of Arts in Healthcare Administration. He has been a New York State Licensed Nursing Home Administrator since 1983. David is the former Director of the New York State Department of Health Long-Term Care Program, which regulates nursing homes in the New York City, Westchester & Long Island areas.

David is committed to changing the culture at Medford Multicare Center with a goal for the facility to be the best on Long Island. The staff at Medford is dedicated to serving its residents and short-term rehab patients. Already implemented are new operating procedures designed to improve staff responsiveness. And, you just have to experience our new menu!

David will be working with the management team and staff at Medford to continue progress to improve services, skills and care. Renovations to the facility, including enhancements to our home-like environment are already underway. We've even installed an internet cafe!

"Working with and listening to our residents, their families and staff will help us create a healthy and satisfying community. I look forward to the challenges ahead as we Strive for Excellence," said Mr. Fielding. "We welcome you to come visit us and see our changes."
