

We made the right choice...

“After 4 months in a hospital ICU, my wife needed to attend Rehab. When she arrived to Medford in July she was on a ventilator and could not even sit in a chair.

The rehab staff here are excellent. I have seen tremendous progress, every day. She now can sit in a chair, transfer and walk. She is off the vent and breathing on her own. Since she was admitted, and with the help of the dieticians, she has lost 60 pounds while receiving good nutrition. I visit every day and see that this facility is running wonderfully, running correctly and that the staff are hard working. I look forward to her coming home.

I am very happy I chose Medford Multicare Center for Living to care for June.”

- Quote by Mr. Charles Rennert, pictured behind his wife, June with members of Medford's Rehabilitation & Respiratory Team.

Medford
